

Memorial Bench Policy

1. INTRODUCTION

1.1 Newington Parish Council will facilitate the purchase and placement of memorial benches in public open spaces owned by the Council on request, where appropriate opportunities exist.

1.2 The Council receives occasional requests from members of the public who wish to place a memorial bench within a public open space. These are often places with which individuals or families have a particular connection or special relationship. There is no legislative requirement for the provision of public or memorial benches although it is accepted that they provide a useful and valued public amenity.

1.3 This policy recognises the need for a consistent approach to the provision of memorial benches in public open spaces. As resources available to the Council to provide public services reduce, much more consideration of the level of infrastructure that can be provided and maintained is required. A rationalisation of the range and quality of infrastructure is also needed to avoid items which are onerous to maintain or have a poor life expectancy. In addition, opportunities to provide infrastructure for public benefit in different and new ways need to be maximised.

1.4 This policy therefore continues to welcome approved benches for appropriate locations in the public open spaces. The operating principles below will ensure that requests for memorial benches are responded to in a consistent, efficient and helpful manner. It will result in appropriate bench styles being purchased and installed in appropriate locations to ensure they are easy to maintain and not unduly prone to vandalism.

1.3 It is the intention that the policy only covers broad common issues and is not meant to be exhaustive. The content of this policy will be revised as necessary to meet changing circumstances.
